## **Clinical Options**

At Independent Health Care Service (IHCS) we aim to provide the highest quality support in your own home, in a safe and considerate manner.

IHCS offer a range of services under a variety of different funded programs, as well as options for people wanting to choose their own private service or obtain services via a brokered arrangement with another provider.

IHCS can individually tailor assistance to meet your needs, based on your choice of service.

### **Your Service, Your Choice.**

#### **COMMUNITY NURSING**

The Community Nursing program is available to all members of the community who require care from a Registered Nurse.

As well as being available for private bookings, our Registered Nurses in our Community Nursing Program can be contracted by other service providers to undertake clinical assessments for clients receiving a Home Care Package or to attend to clinical needs such as wound care and medication administration, plus many other specialised clinical tasks.

Our Registered Nurses can oversee support staff and provide competency training to enable support staff to attend to specific individual needs.

#### **DVA NURSING**

IHCS provides assistance to eligible recipients as part of the Department of Veterans Affairs Community Nursing Program. Referral to IHCS DVA Nursing Program is through your GP, Specialist, a Hospital Discharge planner, or via the VHC Assessment Agency. You, or your family member, can also self refer to the program, and we will organise a referral on your behalf.

#### **FEES**

With the exception of DVA Nursing, fees apply for Community Nursing which will vary depending upon your available funding options. Feel free to contact the IHCS office to discuss your personal circumstances and obtain a quote for community nursing services.
