Support Services

Independent Health Care Service (IHCS) is a fully Tasmanian owned company dedicated to providing quality individual support to people living in the community.

IHCS is an approved provider of services under both the Individual Support Program (ISP) and National Disability Insurance Scheme (NDIS).

We aim to provide the highest quality support services, that are tailored to your individual needs and directed by you. Following an assessment by the Gateway program, service types and the amount of support you require is determined. IHCS can work with you to provide your support, in the way that suits you best.

Your Service, Your Choice.

IHCS have a diverse group of staff who can assist with a wide range of support services, including traditional supports such as personal care and domestic assistance, through to individualised supports, tailored to meet your social, recreational and occupational needs.

IHCS can also assist with the full range of supports that a person may have, for example, we can provide specific staff training to meet individual care needs, and clinical staff (including Registered Nurses) for specialised care.
